You are walking in the footsteps of the ancestors of the Traditional Custodians, the Ngunnawal People. They have lived with this ancient landscape for tens of thousands of years and their connection to this area is still as strong today. This country was a significant meeting place for neighbouring nations, the Gundungurra and Wiradjuri people. Ceremonies, trade, marriage and Lore/Law between tribes took place during such gatherings.

AUSTRALIA HAS THE WORST MAMMAL EXTINCTION RATE IN THE WORLD.
